

ENHANCE YOUR PAYER SERVICES AND REVENUE OPPORTUNITIES

As an HIE and national network, KONZA understands how challenging it can be to make and sustain the necessary investments in technology and human capital to support providers and payers in this new era of value, quality reporting and risk-based contracting.

By partnering, KONZA can enable your HIE to provide enhanced data exchange and reporting capabilities to your payers, while driving new revenue opportunities.

KONZA
NATIONAL NETWORK

January February March April May June July August September October November December

How KONZA National Network Can Support Payer Services

HEDIS Reporting

KONZA can help your HIE provide NCQA standard supplemental data to payers for HEDIS reporting

Risk Adjustment

KONZA can enable your HIE to provide diagnosis information to support payer risk adjustment for value-based models

Primary Source Verification

KONZA can provide training in documenting patient medical records for PSV and other payer uses

Data Transport

KONZA can assist your HIE to optimize ADT, CCD and FHIR feeds for payer requirements

DAV Accreditation

KONZA can help your providers achieve DAV Accreditation

Payer Alerts

KONZA can provide alerting to payers on critical patient events

Other Payer Services with KONZA

- Dashboards and quality reports to facilitate care coordination, support population health and identify health disparities
- Managed services (project management, help desk, finance and more)

Interested in exploring possibilities together? Let's talk.

Shared infrastructure reduces the cost of providing payer services.
